

# **MICHIGAN THUMB NET**

**3950 kHz**

**Every Sunday**

**8AM Local Time**

**Preamble for use by the  
Net Control Station**

Good Morning!

This is (name and callsign \_\_\_\_\_), Net Control station for the Michigan Thumb Net this morning. I'm located in (location \_\_\_\_\_). This Net meets every Sunday morning at 8 o'clock local time on 3950 kilohertz. The purpose of the net is to promote good fellowship and an exchange of ideas of interest to amateur radio. Moreover, if anyone has any traffic, the net will attempt to clear it.

A net certificate is available to any station with four consecutive check-ins or six check-ins in three months. Please send your log information to KD2TV at his call book or QRZ address to receive a net certificate.

Instructions –

Call stations in the following order - -

- Mobile Stations
- Short Timers (must leave early for Church or whatever)
- Stations Outside the State of Michigan
- Stations with Traffic
- Regular Check-ins

After you have all the initial check-ins recorded, proceed with mobile transmissions.

Then, if any traffic has been reported, try to find an outlet for it. Sometimes stations can go off frequency on 75 meters or perhaps on two meters to clear traffic. Otherwise, at your discretion, the traffic may be cleared on frequency as you see fit.

Then proceed with transmissions in the above order.

Call for additional check-ins every quarter hour and at the “end of the list.” Go around two times.

Repeat the net certificate information for first time check-ins as they occur.

Thank you to our net controls!!!!!!!!!!!!
